What he offers you

Ranjay Gulati explores how "resilient" companies - those that prosper both in good times and bad - drive growth and increase profitability by immersing themselves in the lives of their customers. Having served on the advisory boards of several startup companies and appeared as an expert witness in business litigations, he advises and speaks to corporations, large and small, around the globe. His recent work explores leadership and strategic challenges for building high growth organizations in turbulent markets. Ranjay uses instructional methodologies that include proven and effective adult learning tools.

How he presents

An important and fascinating speaker for theorists and practitioners alike, Ranjay Gulati assembles, integrates and refines ten years of path breaking research by extending the "resource-based" view to include 'network resources' residing, not in the firm, but in its social networks to the outside, in a clear and concise manner.
