### In detail

Uli is a true multi-instrumentalist who writes his own musical scores and arrangements. He is the inventor of the unique instrument - the by now legendary 6-octave Sky guitar which is without peer and continues to be so. In 2006, Uli founded a teaching facility in Los Angeles and named it Sky Academy with the purpose of sharing his musical philosophy. Since then he has held over sixty Sky Academy seminars in many different countries. With their wide-reaching range of teachings, these seminars have proved very popular not only with musicians, but also non-musicians and fans. Uli loves teaching and is currently preparing his first Sky Academy book, which is devoted to the metaphysics of music. Widely recognised, Uli is seen by many as a trend-setter who has often been considerably ahead of his time.
